

SC100

Innovative Upright Scrubber Dryer

Easy to fill the solution tank with water in any low sink.

The SC100 needs just 25 cm clearance for cleaning.

Apart from faster cleaning of hard floors, you can also freshen up smaller carpets, including removal of spots, by adding an optional carpet kit. Brush and squeegees can be removed without any tools, making daily maintenance operations easy and fast.

Compact upright scrubber dryer for narrow areas

The Nilfisk SC100 upright scrubber dryer is designed for cleaning narrow areas. Compared to the manual solution of a mop and bucket, this innovative upright machine scrubs and dries in one pass, giving fast access to cleaned areas.

Ideal for retail, restaurants, convenience stores, fast food outlets, hotels and in-home cleaning.

EASY, FAST AND PRODUCTIVE CLEANING

- Scrubs and dries in one pass giving fast access to cleaned areas.
- Two solution flow settings for efficient cleaning and red LED light indicator alarm when the tank is empty
- Ergonomic handle for comfortable one or two handed operation.
- Easy to carry and to transport – only 12 kg weight.

SAFE AND HYGIENIC

- Only uses clean solution: eliminates dirt and bacteria spread caused by mopping or sweeping.
- Tank-in-tank design for easy empty/refill in any low sink.
- Low deck profile and offset for cleaning of difficult to reach areas.
- Easy and quick maintenance operations ensure the operator always has a clean and functional machine.

REDUCED TOTAL COST TO CLEAN

- Flexible cleaning: Solution eco-flow for light cleaning and double-flow for spot or heavy duty cleaning.
- All machine functions stop in upright position - eliminating solution spill and protecting floors.
- Robust aluminum frame design guarantees high reliability and long life.
- Handy detergent dosing cap sits conveniently on the solution tank so operators can always add the correct amount of detergent.

Tanks can be removed quickly and carried in one hand.

The optional manual suction hose is ideal for cleaning any hard to reach area or spot cleaning.

Stay in full control of the scrubber dryer thanks to the intuitive touch display with two water settings and a solution indicator, alerting you when the tank is empty.

Reliability is also our mantra when it comes to service

Regular service and maintenance reduce long-term maintenance costs, prolong the working life of your machinery and help provide a safe working environment for your operators and employees. At Nilfisk, we offer comprehensive maintenance services for all of our products.

The ergonomic handle can be tilted down for effective cleaning in low positions. The detachable cord is easily stored on the handle hook.

Squeegees can be raised for double scrubbing performance to remove any persistent dirt or spots.

The detachable tanks are easy to empty/refill in any low sink.

Offset brush enables cleaning near walls.

Touch display for intuitive control of the machine and Low water alert prevents using the machine without solution.

Water flow control with two settings secures perfect cleaning results even in filthy areas.

When the machine is parked upright all functions will automatically stop and no squeegee or brush will be on the floor.

Both vacuum motor filter and solution filters protect sensitive components from failures and ensure a reliable cleaning machine.
