

DISPOSABLE SLEEVE PROTECTORS

Lighttouch

Armgard

Pro-Val sleeve protectors are available in two alternatives, polypropylene or polyethylene.

They provide coverage from your wrist to elbow and also help ensure no gap between glove/arm and keeps loose sleeves out of the way.

Features

- HACCP Australia Food Safety Certification
- Lighttouch is made from polypropylene (PP) and is breathable
- Armgard is made from polyethylene (PE) for wet and messy areas
- Elastic both ends, heat sealed, no side seams
- 40cm long
- Lightweight
- Available in white and blue
- Uni size

Uses include

- Food manufacturing and processing
- Fisheries, poultry and meatworks
