

Product Bulletin

Issued Aug 2005
Supercedes: Aug 2000
George Di Scala

Description:

The product is a general purpose scouring tool, combination of a multipurpose, open textured non-woven web (Nylon/polyester), with unique abrasive technology (Plastic). It is designed to provide strong scouring power but remains gentle enough to use on most surfaces.

Product Advantages :

- HACCP Australia endorsement as a food safe cleaning product.
- Very good scouring performance. Removes baked food faster than conventional products (usually removes up to 50 percent more backed food residues than usual pads).
- Scratches surfaces up to 8 times less than other medium/heavy duty commercial scouring products.
- Bow-tie shape comfortably fits hand for easy scouring.

Where and When to Use:

The #2000 is endorsed as a food safe cleaning aid and meets the requirements of a

HACCP based food safety program

Where and When to Use (cont):

Use to clean a wide variety of surfaces: heavily encrusted pots and pans, kitchen and cooking equipment, sinks, appliances, countertops, doors, floors, walls, drinking fountains, ceramic tiles, porcelain and more.

Maintenance:

- Rinse the pad after each use under tap water.
- Remove deeply embedded soil by brushing the pad with a nylon brush.

Product characteristics:

Property	Nominal Value
Weight :	600 g/sqm 11 g/unit
Thickness :	9.0 mm
Size :	159 x99 mm bow-tie shape
