Interior Glass Anti-Fog Treatment

Product Description

Rain-X Anti-Fog prevents interior fogging before the problem begins

- Reduces interior fogging and removes smoke residue for safer driving
- Eliminates interior condensation caused by wet weather, high humidity levels or temperature changes for safer driving
- Fits in glove compartment, door panel or under seat for ease of use
- For use on automotive glass, marine interior glass and mirrors for the ultimate anti-fog treatment

Directions for Use

- Apply a small amount of Rain-X Anti-Fog to a paper towel or 100% cotton cloth
- Wipe across surface to be treated
- Allow to dry
- Re-apply as needed to maintain fog-free condition
- If any haze appears due to excess application, sprinkle with water and wipe with a dry cloth or paper towel until clear
